Directors' Report

Multiplex New Zealand Property Fund

For the year ended 30 June 2012

Introduction

The Directors of Brookfield Capital Management Limited (ABN 32 094 936 866), the Responsible Entity of Multiplex New Zealand Property Fund (ARSN 110 281 055) (Fund), present their report together with the financial statements of the Consolidated Entity, being the Fund and its subsidiaries, for the year ended 30 June 2012 and the Independent Auditor's Report thereon. The Fund was constituted on 28 July 2004.

Responsible Entity

The Responsible Entity of the Fund is Brookfield Capital Management Limited (BCML). The registered office and principal place of business of the Responsible Entity is Level 22, 135 King Street, Sydney NSW 2000.

Directors

The following persons were Directors of the Responsible Entity at any time during or since the end of the financial year:

Name	Capacity
F. Allan McDonald (appointed 1 January 2010)	Non-Executive Independent Chairman
Brian Motteram (appointed 21 February 2007)	Non-Executive Independent Director
Barbara Ward (appointed 1 January 2010)	Non-Executive Independent Director
Russell Proutt (appointed 1 January 2010)	Executive Director
Shane Ross (appointed 16 May 2011)	Executive Director

Information on Directors

F. Allan McDonald (BEcon, FCPA, FAIM, FCIS), Non-Executive Independent Chairman

Allan was appointed the Non-Executive Independent Chairman of BCML on 1 January 2010 and also performs that role for Brookfield Funds Management Limited (BFML). Allan has had extensive experience in the role of Chairman and is presently associated with a number of companies as a consultant and Company Director. BCML is also the Responsible Entity for listed funds Brookfield Australian Opportunities Fund (BAO), Brookfield Prime Property Fund (BPA) and Multiplex European Property Fund (MUE). BFML is the Responsible Entity for the listed Multiplex SITES Trust. Allan's other directorships of listed entities are Astro Japan Property Management Limited (Responsible Entity of Astro Japan Property Trust) (appointed February 2005), Billabong International Limited (appointed July 2000), and Brookfield Office Properties Inc. (appointed May 2011). During the past 3 years, Allan has also served as a Director of the following listed company: Ross Human Directions Limited (April 2000 – February 2011).

Brian Motteram (BBus, CA), Non-Executive Independent Director

Brian has in excess of 40 years of experience working in the area of finance and accounting. He has worked with international accounting firms, in his own private practice, and during the last 21 years in private enterprise in both the mining and property industries. He spent 8 years (from 1996 to 2004) as an executive of a Perth-based property company in the position of Chief Financial Officer and, later, as Financial Director. BCML is also the Responsible Entity for listed funds BAO, BPA and MUE. Brian is a fully qualified Chartered Accountant having trained with KPMG and Deloitte.

Barbara Ward, AM (BEcon, MPolEcon, MAICD), Non-Executive Independent Director

Barbara was appointed as a Non-Executive Independent Director of BCML on 1 January 2010 and also performs that role for BFML. Barbara has gained extensive business and finance experience through her role as Chief Executive Officer of Ansett Worldwide Aviation Services, as General Manager Finance for the TNT Group and as a Senior Ministerial Advisor. BCML is also the Responsible Entity for listed funds BPA and MUE. BFML is the Responsible Entity for the listed Multiplex SITES Trust. Barbara is a Director of Essential Energy, Ausgrid, Endeavour Energy and Qantas Airways Limited. During the past 3 years Barbara has also served as a Director of Lion Nathan Limited (February 2003 to October 2009) and Chair of Essential Energy (June 2001 to June 2012).

Russell Proutt (BComm, CA, CBV), Executive Director

Russell Proutt is the Chief Financial Officer of Brookfield Australia Pty Limited and was appointed as an Executive Director of BCML on 1 January 2010 and also performs that role for BFML. BCML is also the Responsible Entity for the listed funds BAO, BPA and MUE. BFML is the Responsible Entity for the listed Multiplex SITES Trust. Russell joined Brookfield Asset Management Inc, the ultimate parent company of BCML, in 2006 and has held various senior management positions within Brookfield.

Shane Ross (BBus), Executive Director

Shane is the Group General Manager of Treasury for Brookfield Australia Investments Limited and was appointed as an Executive Director of BCML on 16 May 2011. BCML is also the Responsible Entity for BAO, BPA and MUE. Shane joined the organisation in 2003 following a background in banking and has over 17 years experience in treasury and finance within the property industry.

For the year ended 30 June 2012

Information on Company Secretary

Neil Olofsson

Neil has over 16 years of international company secretarial experience and has been with the Brookfield Australia group since 2005.

Directors' interests

The following table sets out each Director's relevant interest in the units, debentures, rights or options over such instruments, interests in registered schemes and rights or options over such instruments issued by the entities within the Consolidated Entity and other related bodies corporate as at the date of this report:

Director	Multiplex New Zealand Property Fund units held
F. Allan McDonald	26,000
Brian Motteram	–
Barbara Ward	–
Russell Proutt	–
Shane Ross	–

No options are held by/have been issued to Directors.

Directors' meetings

Director	Board Meetings		Audit Committee Meetings		Board Risk and Compliance Committee Meetings	
	A	B	A	B	A	B
F. Allan McDonald	6	6	2	2	2	2
Brian Motteram	6	6	2	2	2	2
Barbara Ward	6	6	2	2	2	2
Russell Proutt	6	6	n/a	n/a	n/a	n/a
Shane Ross	6	6	n/a	n/a	n/a	n/a

A – Number of meetings attended.

B – Number of meetings held during the time the Director held office during the year.

Committee meetings

There were no Board committee meetings held during the year other than those stated above.

Principal activities

The principal activity of the Consolidated Entity is the investment in properties in New Zealand.

Review of operations

The Consolidated Entity has recorded a net loss after tax of \$6,028,000 for the year ended 30 June 2012 (2011: \$10,437,000). The reported net loss includes \$14,151,000 of unrealised losses on revaluations of investment properties (2011: \$25,347,000) and \$1,086,000 net gain on financial derivatives (2011: \$4,481,000).

Some of the significant events during the year are as follows:

- total revenue and other income of \$41,806,000 (2011: \$49,125,000);
- distributions to unitholders of nil (2011: nil);
- net assets attributable to unitholders of \$124,356,000 (2011: \$128,498,000) and net asset per unit of \$0.57 (2011: \$0.59);
- the weighted average lease term to expiry is approximately 4.50 years (2011: 4.84 years) and the portfolio occupancy rate is 97% (2011: 90%);
- the sale of the University Building investment property was settled on 19 July 2011 for gross proceeds of \$7,644,000 or NZ\$9,600,000;
- the sale of a portion of The Hub - Whakatane investment property was settled on 29 February 2012 for gross proceeds of \$5,774,000 or NZ\$7,415,000; and
- the net proceeds from the two sales were used to repay debt.

The strategy for the Fund will be determined by the outcome of unitholders providing their elections as to whether they wish to remain investors in the Fund. This election process completes on 17 September 2012 and the Board will then determine an appropriate process to enable those unitholders so choosing to exit the Fund. This process may require the sale of assets by the Fund or could lead to the ultimate wind up of the Fund.

In any case the strategy in relation to the Fund's property assets remains securing and enhancing the value of the Fund's properties through active management of the major lease expiries arising in the portfolio.

Directors' Report continued

Multiplex New Zealand Property Fund

For the year ended 30 June 2012

Refinancing of debt

Subsequent to the year end, on 17 August 2012, the Consolidated Entity entered into a revised term facility with ANZ. The key terms are as follows:

- Term: Until 16 August 2015 (being 36 months from date of signing the new facility).
- Amount: NZ\$149,984,000
- Base rate plus a margin subject to the following rates:
 - The margin for the first draw period will be 2.50%. For each subsequent draw period, the margin will be determined by reference to the table below based on the then applicable LVR.
 - A change in margin will take effect on commencement of the next occurring draw period:

LVR	Margin
55% LVR < 60%	2.90%
50% LVR < 55%	2.70%
45% LVR < 50%	2.50%
40% LVR < 45%	2.30%
< 40%	2.10%

- Key Covenants:
 - (LVR) the LVR does not exceed 55%;
 - (historical interest cover) the ratio of EBIT to Total Interest Expense for the preceding 6 month period is at least 1.50 : 1.00; and
 - (Forecast ICR) the Forecast ICR is at least 1.50 : 1.00.

Exit mechanism

As required by the Fund constitution, investors have been provided with the option to sell or withdraw from the Fund. The original notice was provided on 29 May 2012, with subsequent updates to investors on 16 July 2012, 19 July 2012 and 14 August 2012. Investors have been provided with a notice asking them to advise whether or not they want to continue to own their units for a further period specified by BCML as an additional 3 years or whether they want to sell or withdraw from the Fund. This process is set out in the Fund constitution and in the PDS. At the date of these accounts, investors are required to elect to do the following:

- Investors may dispose of some or all of their current investment or remain invested in the Fund;
- It is important that investors return the Election Form by 17 September 2012; and
- If the Election Form is not returned by 17 September 2012, investors' investment will be re-invested for a period up to three years.

Subsequent to investors advising of their choice BCML will determine the appropriate strategy to meet these requirements. This strategy will be determined in light of the number of investors who wish to exit from the Fund and will require a consideration of the interests of all investors in the Fund. As properties may be required to be disposed to facilitate the exit of investors the amount to be received and timing of receipt may be subject to market conditions at the time.

Interests of the Responsible Entity

Fee payments

The Consolidated Entity incurred the following fees to the Responsible Entity during the financial year:

- Management fees incurred during the year were \$2,487,000 (2011: \$2,839,000);
- Leasing fees incurred during the year was nil (2011: nil); and
- Property sale fees incurred during the year were nil (2011: nil).

Investments held

The following interests were held in the Consolidated Entity during the year:

- Brookfield Funds Management Limited as responsible entity for Brookfield Australia Property Trust holds 47,461,298 units or 21.8% of the Fund at year end (2011: 47,461,298 units or 21.8% of the Fund);
- JP Morgan Chase Bank N.A. as custodian for Brookfield Australian Opportunities Fund holds 43,890,679 units or 20.1% of the Fund at year end (2011: 43,890,679 units or 20.1% of the Fund);
- Perpetual Trust Limited as trustee for Multiplex Tasman Property Fund holds 4,560,502 units or 2.1% of the Fund at year end (2011: 4,560,502 units or 2.1% of the Fund);
- JP Morgan Chase Bank N.A as custodian for Multiplex Property Income Fund holds 1,125,402 units or 0.5% of the Fund at year end (2011: 1,125,402 units or 0.5% of the Fund);
- BCML holds 17,266,146 units or 7.9% of the Fund at year end (2011: 17,266,146 units or 7.9% of the Fund);

Directors' Report continued

Multiplex New Zealand Property Fund

7

For the year ended 30 June 2012

Interests of the Responsible Entity continued

Investments held continued

- Multiplex APF Pty Ltd, as trustee for Multiplex APF Trust, holds 3,712,913 units or 1.7% of the Fund at year end (2011: 3,712,913 units or 1.7% of the Fund); and
- Brookfield Multiplex Capital Pty Ltd holds 220,793 units or 0.1% of the Fund at year end (2011: 220,793 units or 0.1% of the Fund).

Significant changes in the state of affairs

In the opinion of the Directors there were no significant changes in the state of affairs of the Consolidated Entity that occurred during the financial year other than those disclosed in this report or in the financial statements.

Events subsequent to the reporting date

At 30 June 2012, the Consolidated Entity's investment in the ASB Bank Centre building has been classified as held for sale. The sale of the building was settled post financial year end, on 27 July 2012, for gross consideration of \$80,092,000 or NZ\$104,000,000. The net proceeds from sale have been used to repay debt.

Subsequent to the year end, on 17 August 2012, the Fund entered into a revised term facility with ANZ. The key terms are discussed above under the section titled refinancing of debt.

Other than the above, there are no matters or circumstances which have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Consolidated Entity, the results of those operations, or the state of affairs of the Consolidated Entity in subsequent financial years.

Likely developments

Information on likely developments in the operations of the Consolidated Entity in future financial years and the expected results of those operations has not been included in this report because the Directors believe that to do so would be likely to result in unreasonable prejudice to the Consolidated Entity.

Environmental regulation

The Consolidated Entity has systems in place to manage its environmental obligations. Based upon the results of inquiries made, the Responsible Entity is not aware of any significant breaches or non-compliance issues during the year covered by this report.

Distributions

The Consolidated Entity did not pay any distributions for the current year ended 30 June 2012 and the prior year ended 30 June 2011. Under the current term debt facility, the Consolidated Entity is restricted from making distributions to investors until the LVR is less than 55% (assuming all other covenants are satisfied).

Indemnification and insurance of officers and auditors

BCML is a wholly owned subsidiary of Brookfield Australia Investments Limited (BAIL). BAIL has entered into deeds of access and indemnity with each of its Directors, Company Secretary and other nominated Officers. The terms of the deeds are in accordance with the provisions of the *Corporations Act 2001* and will indemnify these executives (to the extent permitted by law) for up to seven years after serving as an Officer against legal costs incurred in defending civil or criminal proceedings against the executives, except where proceedings result in unfavourable decisions against the executives, and in respect of reasonable legal costs incurred by the executives in good faith in obtaining legal advice in relation to any issue relating to the executives being an officer of the Brookfield Australian Investments Group (Group), including BCML.

Under the deeds of access and indemnity, BAIL has agreed to indemnify these persons (to the extent permitted by law) against:

- liabilities incurred as a director or officer of BCML or a company in the Group, except for those liabilities incurred in relation to the matters set out in section 199A(2) of the *Corporations Act 2001*; and
- reasonable legal costs incurred in defending an action for a liability or alleged liability as a director or officer, except for costs incurred in relation to the matters set out in section 199A(3) of the *Corporations Act 2001*.

BAIL has also agreed to effect, maintain and pay the premium on a directors' and officers' liability insurance policy. This obligation is satisfied by BAIL being able to rely upon Brookfield's global directors' and officers' insurance policy, for which it pays a portion of the premium.

As is usual, this policy has certain exclusions and therefore does not insure against liabilities arising out of matters including but not limited to:

- fraudulent, dishonest or criminal acts or omissions and improper personal profit or advantage;
- violation of US Securities Act of 1933;
- losses for which coverage under a different kind of insurance policy is readily available such as, for example, liability insurance, employment practices liability and pollution liability (there can be limited coverage for some of these exposures); and

Directors' Report continued

Multiplex New Zealand Property Fund

For the year ended 30 June 2012

8

Indemnification and insurance of officers and auditors continued

- claims made by a major shareholder (threshold is ownership of 10% or greater).

The obligation to effect, maintain and pay the premium on a policy continues for a period of seven years after the director or officer has left office to the extent such coverage is available with reasonable terms in the commercial insurance marketplace.

Contract of insurance

The Group has paid or agreed to pay a portion of the premium in respect of a contract taken out by Brookfield Asset Management Inc. insuring the Directors and officers of Brookfield Asset Management Inc. and its subsidiaries, which include BCML, against a liability.

The Group has not otherwise, during or since the end of the financial year, except to the extent permitted by law, indemnified or agreed to indemnify an officer or auditor of BCML or of any related body corporate against a liability incurred as such an officer or auditor.

Rounding of amounts

The Consolidated Entity is of a kind referred to in ASIC Class Order 98/100, dated 10 July 1998 (updated by CO 05/641 effective 28 July 2005 and CO 06/51 effective 31 January 2006), and in accordance with that Class Order, all financial information presented in Australian dollars has been rounded to the nearest thousand dollars, unless otherwise stated.

Lead auditor's independence declaration under Section 307C of the Corporations Act 2001

The lead auditor's independence declaration is set out on page 9 and forms part of the Directors' Report for the year ended 30 June 2012.

Dated at Sydney this 22nd day of August 2012.

Signed in accordance with a resolution of the Directors made pursuant to Section 298(2) of the *Corporations Act 2001*.

Russell Proutt

Director

Brookfield Capital Management Limited

The Board of Directors
Brookfield Capital Management Limited
(as Responsible Entity for Multiplex New Zealand Property Fund)
135 King Street
SYDNEY, NSW 2000

22 August 2012

Dear Directors

MULTIPLEX NEW ZEALAND PROPERTY FUND

In accordance with section 307C of the Corporations Act 2001, I am pleased to provide the following declaration of independence to the directors of Brookfield Capital Management Limited as the Responsible Entity for Multiplex New Zealand Property Fund.

As lead audit partner for the audit of the financial statements of Multiplex New Zealand Property Fund for the year ended 30 June 2012, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- (i) the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- (ii) any applicable code of professional conduct in relation to the audit.

Yours faithfully

DELOITTE TOUCHE TOHMATSU

Helen Hamilton-James

Cash and cash equivalents at 30 June		24,097	19,096

The Statement of Cash Flows should be read in conjunction with the Notes to the Financial Statements.

Notes to the Financial Statements

Multiplex New Zealand Property Fund

14

For the year ended 30 June 2012

1 Reporting entity

Multiplex New Zealand Property Fund (Fund) is an Australian registered managed investment scheme under the *Corporations Act 2001*. Brookfield Capital Management Limited (BCML), the Responsible Entity of the Fund, is incorporated and domiciled in Australia. The consolidated financial statements of the Fund as at and for the year ended 30 June 2012 comprise the Fund and its subsidiaries (together referred to as the Consolidated Entity).

2 Basis of preparation

a Statement of compliance

The financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards (AASB) (including Australian interpretations) adopted by the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001*. The financial statements of the Consolidated Entity and the Fund comply with International Financial Reporting Standards (IFRS) and interpretations adopted by the International Accounting Standards Boards (IASB).

The financial statements were authorised for issue by the Directors on this 22nd day of August 2012.

b Basis of measurement

The consolidated financial statements have been prepared on the basis of historical cost, except for the following:

- derivative financial instruments which are measured at fair value;
- investment properties which are measured at fair value; and
- interest bearing liabilities which are measured at amortised cost.

The methods used to measure the above are discussed further in Note 3.

The consolidated financial statements are presented in Australian dollars, which is the Fund's presentation currency. The Fund's functional currency is Australian dollars. However, the Consolidated Entity is predominantly comprised of operations that are located in New Zealand. The functional currency of the controlled entity that holds these operations is the New Zealand dollar.

The Consolidated Entity is of a kind referred to in ASIC Class Order 98/100, dated 10 July 1998 (updated by CO 05/641 effective 28 July 2005 and CO 06/51 effective 31 January 2006), and in accordance with that Class Order, all financial information presented in Australian dollars has been rounded to the nearest thousand dollars, unless otherwise stated.

c Use of estimates and judgements

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of estimation, uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the financial statements is provided in investment properties (Note 11) and financial instruments (Note 18).

d Going concern

The financial statements have been prepared on the going concern basis which assumes the Consolidated Entity will be able to realise its assets and discharge its liabilities in the normal course of business.

Notwithstanding that the Directors of the Responsible Entity believe it is appropriate to adopt the going concern basis, the following factor creates uncertainty regarding the going concern assumption. As outlined in the Directors Report, by 17 September 2012, all unitholders will be asked to vote (Vote) on whether to continue to hold or redeem their units in the Fund. Subsequent to this Vote, BCML, as Responsible Entity, will determine the most appropriate strategy to meet the requirements of those unitholders wishing to exit the Fund. This strategy decision will be influenced by the number of investors seeking to exit and their relevant interests in the Fund which in turn may have an impact on the Responsible Entity's decision to continue to adopt the going concern basis. Further details of the likely scenarios for the future strategy of the Fund have been set out in the notices to investors provided on 29 May 2012, with subsequent updates to investors on 16 July 2012, 19 July 2012 and 14 August 2012.

The financial report does not include adjustments relating to the recoverability and classification of recorded asset amounts, nor to the amounts and classification of liabilities that might be necessary should the Fund and Consolidated Entity not continue as a going concern.

Notes to the Financial Statements continued

Multiplex New Zealand Property Fund

15

For the year ended 30 June 2012

3 Significant accounting policies

The significant policies set out below have been applied consistently to all periods presented in these financial statements.

a Principles of consolidation

The consolidated financial statements incorporate the financial statements of the Fund and its subsidiaries. Control is achieved where the Fund has the power to govern the financial and operational policies of an entity so as to obtain benefits from its activities.

The results of the subsidiaries acquired or disposed of during the year are included in the consolidated Statement of Comprehensive Income from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by the Consolidated Entity. The assets and liabilities of foreign controlled entities are translated into Australian dollars at rates of exchange current at the period end date, while their income and expenditure are translated at the exchange rate at the date of the transactions.

All intra-group transactions, balances, income and expenses, including unrealised profits arising from intra-group transactions, are eliminated in full in the consolidated financial statements. In the separate financial statements of the Fund, intra-group transactions (common control transactions) are generally accounted for by reference to the existing carrying value of the items. Where the transaction value of common control transactions differs from their carrying value, the difference is recognised as a contribution by or distribution to equity participants by the transacting entities.

In the Fund's financial statements, investments in controlled entities are carried at cost less impairment, if applicable.

Non-controlling interests in subsidiaries are identified separately from the Consolidated Entity's equity therein. The interests of non-controlling shareholders may be initially measured either at fair value or at the non-controlling interests' proportionate share of the fair value of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition-by-acquisition basis. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity. Total comprehensive income is attributed to non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Changes in the Consolidated Entity's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amounts of the Consolidated Entity's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to unitholders.

When the Consolidated Entity loses control of a subsidiary, the gain or loss on disposal is calculated as the difference between the aggregate of the fair value of the consideration received and the fair value of any retained interest and the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. Amounts previously recognised in other comprehensive income in relation to the subsidiary are accounted for (i.e. reclassified to profit or loss or transferred directly to retained earnings) in the same manner as would be required if the relevant assets or liabilities were disposed of. The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under AASB 139 *Financial Instruments: Recognition and Measurement* or, when applicable, the cost on initial recognition of an investment in an associate or jointly controlled entity.

b Foreign and cross currency transactions

Foreign and cross currency transactions of the Consolidated Entity are converted to Australian dollars at the rate of exchange prevailing at the date of the transaction or at hedge rates where applicable. Amounts receivable or payable by entities within the Consolidated Entity that are outstanding as at the period end date and are denominated in foreign currencies are converted to Australian dollars using rates of exchange at the end of the period. All resulting exchange differences arising on settlement are brought to account in the Statement of Comprehensive Income.

Foreign currency differences are recognised directly in equity in the foreign currency translation reserve (FCTR).

c Revenue recognition

Revenues are recognised at the fair value of the consideration received for the sale of goods and services, net of the amount of Goods and Services Tax (GST), rebates and discounts.

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Consolidated Entity and the revenue can be reliably measured.

The following specific criteria for the major business activities must also be met before revenue is recognised. Where amounts do not meet these recognition criteria, they are deferred and recognised in the period in which the recognition criteria are met.

Notes to the Financial Statements continued

Multiplex New Zealand Property Fund

16

For the year ended 30 June 2012

3 Significant accounting policies continued

c Revenue recognition continued

Property rental revenue

Rental income from investment property leased out under an operating lease is recognised in the Statement of Comprehensive Income on a straight-line basis over the term of the lease.

Lease incentives granted are recognised by the Consolidated Entity as an integral part of the total rental income on a straight-line basis.

Contingent rents are recorded as income by the Consolidated Entity in the periods in which they are earned.

Dividends and distributions

Revenue from dividends and distributions is recognised when the right of the Consolidated Entity to receive payment is established, which is generally when they have been declared.

Interest revenue

Interest revenue is recognised as it accrues, taking into account the effective yield on the financial asset.

d Leases

Leases are classified at their inception as either operating or finance leases based on the economic substance of the agreements so as to reflect the risks and benefits incidental to ownership.

Operating leases

The minimum rental revenues of operating leases, where the lessor effectively retains substantially all of the risks and benefits of ownership of the leased item, are recognised as income on a straight-line basis over the lease term, which is considered to best represent the time pattern in which benefits derived from the leased asset are diminished.

Leasing fees

Leasing fees in relation to the initial leasing of the property after a redevelopment are capitalised and amortised over the period to which the lease relates.

Costs that are directly associated with negotiating and executing the ongoing renewal of tenant lease agreements (including commissions, legal fees and costs of preparing and processing documentation for new leases) are also capitalised and amortised over the lease term in proportion to the rental revenue recognised in each financial year.

Leasing incentives

Lease incentives which may take the form of up-front payments, contributions to certain lease costs, relocation costs and fit-outs and improvements are recognised as a reduction of rental income over the lease term.

e Expense recognition

Finance costs

Finance costs are recognised as expenses using the effective interest rate method, unless they relate to a qualifying asset, being an asset that necessarily takes a substantial period of time to get ready for its intended use or sale. Where a qualifying asset exists, borrowing costs that are directly attributable to the acquisition, construction or production of the qualifying asset are capitalised as part of the cost of that asset.

Finance costs include:

- interest on bank overdrafts and short-term and long-term borrowings, including amounts paid or received on interest rate swaps;
- amortisation of discounts or premiums relating to borrowings;
- amortisation of ancillary costs incurred in connection with the arrangement of borrowings;
- finance lease charges; and
- certain exchange differences arising from foreign currency borrowings.

Management fees

A base management fee calculated on the gross value of assets is payable to the Responsible Entity. The fee is payable by the Consolidated Entity monthly in arrears.

Performance fee

A performance fee of 2% of the gross value of assets to the extent the net asset value exceeds the capital subscribed (less any capital returns other than amounts returned as a distribution of operating cash flow) is payable to the Responsible Entity. An additional fee of 2% of the gross value of assets is payable provided unitholders have achieved a 50% premium on capital subscribed (less capital returns).

The performance fee is calculated each time there is a rollover of the Consolidated Entity or on sale of the Consolidated Entity's assets prior to termination of the Consolidated Entity. If a performance fee is payable, then it will be paid by the Fund within two months after it is calculated.

Notes to the Financial Statements continued

Multiplex New Zealand Property Fund

17

For the year ended 30 June 2012

3 Significant accounting policies continued

e Expense recognition continued

Other expenditure

Expenses are recognised by the Consolidated Entity on an accruals basis.

f Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO) or the New Zealand Inland Revenue (IRD). In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of an expense item.

Receivables and payables are stated with the amount of GST. The net amount of GST recoverable from, or payable to, the ATO or the IRD is included as a current asset or liability in the Statement of Financial Position.

Cash flows are included in the Statement of Cash Flows on a gross basis. The GST components of cash flows arising from investing and financing activities which are recoverable from, or payable to, the ATO or the IRD are classified as operating cash flows.

g Income tax - funds

Under current income tax legislation, the Consolidated Entity is not liable for Australian income tax provided that the taxable income is fully distributed to unitholders each year. The Consolidated Entity fully distributes its taxable income each year, calculated in accordance with the Trust Constitution and applicable tax law, to unitholders who are presently entitled to income under the Constitution.

Tax allowances for buildings, plant and equipment are distributed to unitholders in the form of a tax deferred component of the distributions.

The wholly-owned sub-trust of the Fund which owns properties in New Zealand is liable to pay tax under New Zealand tax legislation at the current corporate rate of 28% (2011: 30%).

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates which are enacted or substantively enacted for each jurisdiction. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability. An exception is made for certain temporary differences arising from the initial recognition of an asset or a liability. No deferred tax asset or liability is recognised in relation to these temporary differences if they arose in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit or loss.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

The Fund had no taxable income.

h Cash and cash equivalents

For purposes of presentation in the Statement of Cash Flows, cash includes cash balances, deposits at call with financial institutions and other highly liquid investments, with short periods to maturity, which are readily convertible to cash and are subject to an insignificant risk of changes in value, net of outstanding bank overdrafts.

i Trade and other receivables

Trade debtors and other receivables are stated at their amortised cost using the effective interest rate method less any identified impairment losses. Impairment charges are brought to account as described in Note 3m. Non-current receivables are measured at amortised cost using the effective interest rate method.

j Investment property

An investment property is a property that is held to earn long-term rental yields and/or for capital appreciation.

An investment property acquired is initially recorded at its cost at the date of acquisition, being the fair value of the consideration provided plus incidental costs directly attributable to the acquisition. An investment property is subsequently carried at fair value based on the principles outlined below.

The costs of assets constructed/redeveloped internally include the costs of materials, direct labour, directly attributable overheads, finance costs (Note 3e) and other incidental costs.

Where the contracts of purchase include a deferred payment arrangement, amounts payable are recorded at their present value, discounted at the rate applicable to the Consolidated Entity if a similar borrowing were obtained from an independent financier under comparable terms and conditions.

Notes to the Financial Statements continued

Multiplex New Zealand Property Fund

18

For the year ended 30 June 2012

3 Significant accounting policies continued

j Investment property continued

Valuations

Investment property is stated at fair value at the reporting date.

The investment properties of the Consolidated Entity are internally valued at each reporting date. The Consolidated Entity's policy is to obtain external valuations when internal valuations performed indicate the property value has changed by more than 5%, or whenever it is believed that the fair value of a property differs significantly from its carrying value, based on a material change to the assumptions and market conditions underlying the valuation. An external valuation is obtained at least every 3 years. All external valuations are adopted as the fair value of the investment property at the relevant reporting date. When internal valuations indicate a change from the carrying value between 2% and 5% the internal valuation will be adopted.

The fair value of an investment property is the price at which the property could be exchanged between knowledgeable, willing parties in an arm's length transaction, and is determined:

- without any deduction for transaction costs the entity may incur on sale or other disposal;
- reflecting market conditions at the reporting date;
- reflecting rental income from current leases and reasonable and supportable assumptions that represent what knowledgeable, willing parties would assume about rental income from future leases in the light of current conditions. It also reflects, on a similar basis, any cash outflows that could be expected in respect of the property;
- assuming simultaneous exchange and completion of the contract for sale without any variation in price that might be made in an arm's length transaction between knowledgeable, willing parties if exchange and completion are not simultaneous;
- ensuring that there is no double-counting of assets or liabilities that are recognised as separate assets or liabilities; and
- without inclusion of future capital expenditure that will improve or enhance the property. The valuation does not reflect the related future benefits from this future expenditure.

Any gains or losses arising from a change in the fair value of an investment property are recognised in the Statement of Comprehensive Income in the period in which they arise.

k Derivative financial instruments

The Consolidated Entity uses derivative financial instruments to hedge its exposure to interest rate risk arising from operational, financing and investment activities. The Consolidated Entity does not hold or issue derivative financial instruments for trading purposes.

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured at their fair value, with the changes in fair value during the period recognised in the Statement of Comprehensive Income.

l Non-derivative financial instruments

Non-derivative financial instruments comprise investments in trade and other receivables, cash and cash equivalents, interest bearing liabilities and trade and other payables.

Non-derivative financial instruments are recognised initially at fair value plus, for instruments not at a fair value through profit or loss, any directly attributable transaction costs. Subsequent to initial recognition, non-derivative financial instruments are measured as described below.

A financial instrument is recognised if the Consolidated Entity becomes a party to the contractual provisions of the instrument.

Financial assets are derecognised if the Consolidated Entity's contractual rights to the cash flows from the financial assets expire or if the Consolidated Entity transfers the financial asset to another party without retaining control or substantially all risks and rewards of the asset. Regular way purchase and sales of financial assets are accounted for at trade date, i.e. the date that the Consolidated Entity commits itself to purchase or sell the asset. Financial liabilities are derecognised if the Consolidated Entity's obligations specified in the contract expire or are discharged or cancelled.

Accounting policies for cash and cash equivalents, trade and other receivables, trade and other payables, and interest bearing liabilities are discussed elsewhere within the financial statements.

Other non-derivative financial instruments are measured at amortised cost using the effective interest method, less any impairment losses.

Notes to the Financial Statements continued

Multiplex New Zealand Property Fund

19

For the year ended 30 June 2012

3 Significant accounting policies continued

m Impairment

Financial assets

A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flow of that asset.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate. An impairment loss in respect of an available for sale financial asset is calculated by reference to its current fair value.

Significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

All impairment losses are recognised in the Statement of Comprehensive Income. An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognised. For financial assets measured at amortised cost, the reversal is recognised in the Statement of Comprehensive Income.

Non-financial assets

The carrying amount of the Consolidated Entity's non-financial assets, other than investment property and deferred tax assets is reviewed at each reporting date to determine whether there is any indication of impairment. If such indication exists then the asset's recoverable amount is estimated.

Impairment losses recognised in prior periods are assessed at each reporting date for any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

n Trade and other payables

Payables are stated at amortised cost using the effective interest rate method and represent liabilities for goods and services provided to the Consolidated Entity prior to the end of the financial period and which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

o Interest bearing liabilities

Interest bearing liabilities are recognised initially at fair value less any attributable transaction costs. Subsequent to initial recognition, interest bearing liabilities are stated at amortised cost with any difference between cost and redemption value being recognised in the Statement of Comprehensive Income over the period of the borrowings on an effective interest rate basis. Interest bearing loans and borrowings are classified as current liabilities unless the Consolidated Entity has an unconditional right to defer settlement of the liability to at least 12 months after the period end date.

p Distributions

A provision for distribution is recognised in the Statement of Financial Position if the distribution has been declared prior to period end. Distributions paid and payable on units are recognised as a reduction in equity. Distributions paid are included in cash flows from financing activities in the Statement of Cash Flows.

q Units on issue

Issued and paid up units are recognised as changes in equity at the fair value of the consideration received by the Consolidated Entity, less any incremental costs directly attributable to the issue of new units.

r New standards and interpretations not yet adopted

The following standards, amendments to standards and interpretations have been identified as those which may impact the entity in the period of initial application. They are available for early adoption at 30 June 2012 but have not been applied in preparing this financial report:

AASB 9 *Financial Instruments*, AASB 2009-11 *Amendments to Australian Accounting Standards arising from AASB 9* and AASB 2010-7 *Amendments to Australian Accounting Standards arising from AASB 9 (December 2010)* (effective for annual reporting periods beginning on or after 1 January 2013)

AASB 9 *Financial Instruments* addresses the classification, measurement and derecognition of financial assets and liabilities and will replace the existing AASB 139 *Financial Instruments: Recognition and Measurement*. The standard is not applicable until 1 January 2013 but is available for early adoption. Under AASB 9, financial assets will be classified as subsequently measured at either amortised cost or fair value based on the objective of an entity's business model for managing financial assets and the characteristics of the contractual cash flows.

Notes to the Financial Statements continued

Multiplex New Zealand Property Fund

20

For the year ended 30 June 2012

3 Significant accounting policies continued

r New standards and interpretations not yet adopted continued

This will replace the categories of financial assets under AASB 139, where each had its own classification criteria. For example, AASB 9 only permits the recognition of fair value gains and losses in other comprehensive income if they relate to equity investments that are not held for trading and an irrevocable election is made upon initial recognition. Fair value gains and losses on available-for-sale debt investments, for example, will therefore have to be recognised directly in the profit or loss of the Statement of Comprehensive Income. Financial assets may also be designated and measured at fair value through profit or loss if doing so eliminates or significantly reduces certain inconsistencies. For financial liabilities, the new requirements under AASB 9 only affect the accounting for financial liabilities designated at fair value through profit or loss. The Consolidated Entity does not expect to adopt AASB 9 before its operative date and therefore will apply the new standard for the annual reporting period ending 30 June 2014. The Consolidated Entity is still assessing the consequential impact of the amendments.

AASB 10 *Consolidated Financial Statements*, AASB 11 *Joint Arrangements*, AASB 12 *Disclosure of Interests in Other Entities*, revised AASB 127 *Separate Financial Statements* and AASB 128 *Investments in Associates and Joint Ventures* and AASB 2011-7 *Amendments to Australian Accounting Standards arising from the Consolidation and Joint Arrangements Standards* (effective for annual reporting periods beginning on or after 1 January 2013)

In August 2011, the AASB issued a suite of five new and amended standards which address the accounting for joint arrangements, consolidated financial statements and associated disclosures.

AASB 10 replaces all of the guidance on control and consolidation in AASB 127 *Consolidated and Separate Financial Statements*, and Interpretation 12 *Consolidation – Special Purpose Entities*. The core principle that a consolidated entity presents a parent and its subsidiaries as if they are a single economic entity remains unchanged, as do the mechanics of consolidation. However, the standard introduces a single definition of control that applies to all entities, whereby an investor controls an investee only if the investor is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Power is the current ability to direct the activities that significantly influence returns. Returns must vary and can be positive, negative or both. Control exists when the investor can use its power to affect the amount of its returns. There is also new guidance on participating and protective rights and on agent/principal relationships.

AASB 11 introduces a principles based approach to accounting for joint arrangements. The focus is no longer on the legal structure of joint arrangements, but rather on how rights and obligations are shared by the parties to the joint arrangement. Based on the assessment of rights and obligations, a joint arrangement will be classified as either a joint operation or a joint venture. Joint ventures are accounted for using the equity method, and the choice to proportionately consolidate will no longer be permitted. Parties to a joint operation will account their share of revenues, expenses, assets and liabilities in much the same way as under the previous standard. AASB 11 also provides guidance for parties that participate in joint arrangements but do not share joint control.

AASB 12 sets out the required disclosures for entities reporting under the two new standards, AASB 10 and AASB 11, and replaces the disclosure requirements currently found in AASB 127 and AASB 128.

Amendments to AASB 128 provide clarification that an entity continues to apply the equity method and does not remeasure its retained interest as part of ownership changes where a joint venture becomes an associate, and vice versa. The amendments also introduce a “partial disposal” concept.

The Consolidated Entity does not expect to adopt the new standards and amendments before their operative date and therefore will apply the amendments for the annual reporting period ending 30 June 2014. The Consolidated Entity is still assessing the consequential impact of the new standards and amendments.

AASB 13 *Fair Value Measurement* and AASB 2011-8 *Amendments to Australian Accounting Standards arising from AASB 13* (effective for annual reporting periods beginning on or after 1 January 2013)

AASB 13 was released in September 2011 and sets out in a single standard a framework for measuring fair value, including related disclosure requirements in relation to fair value measurement. The Consolidated Entity does not expect to adopt AASB 13 before its operative date and therefore will apply the amendments for the annual reporting period ending 30 June 2014. The Consolidated Entity is still assessing the consequential impact of the new standard.

AASB 2011-4 *Amendments to Australian Accounting Standards to Remove Individual Key Management Personnel Disclosure Requirements* (effective for annual reporting periods beginning on or after 1 July 2013)

The amendments from AASB 2011-4 remove the individual key management personnel disclosure requirements from AASB 124 *Related Party Disclosures*, to achieve consistency with the international equivalent standard and remove a duplication of the requirements with the *Corporations Act 2001*.

Notes to the Financial Statements continued

Multiplex New Zealand Property Fund

21

For the year ended 30 June 2012

3 Significant accounting policies continued

r New standards and interpretations not yet adopted continued

The Consolidated Entity will adopt the amendments from AASB 2011-4 for the annual reporting period ending 30 June 2014. The Consolidated Entity is still assessing the consequential impact of the amendments.

AASB 2011-9 Amendments to Australian Accounting Standards – Presentation of Items of Other Comprehensive Income (effective for annual reporting periods beginning on or after 1 July 2012)

The main change resulting from the amendments in AASB 2011-9 is a requirement for entities to group items presented in other comprehensive income on the basis of whether they are potentially reclassifiable to profit or loss in the future.

The Consolidated Entity does not expect to adopt AASB 2011-9 before its operative date and therefore will apply the amendments for the annual reporting period ending 30 June 2013. The Consolidated Entity is still assessing the consequential impact of the amendments.

AASB 2010-8 Amendments to Australian Accounting Standards – Deferred Tax: Recovery of Underlying Assets (effective for annual reporting periods beginning on or after 1 January 2012)

The amendments from AASB 2010-8 introduces a rebuttable presumption that the carrying amount of the investment property will be recovered entirely through sale and therefore impact the measurement of the deferred tax liability or asset.

This presumption is rebutted if the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale. The Consolidated Entity does not expect to adopt AASB 2010-8 before its operative date and therefore will apply the amendments for the annual reporting period ending 30 June 2013. The Consolidated Entity is still assessing the consequential impact of the amendments.

Total	10,716	11,449	(22,718)	(19,265)	(12,002)	(7,816)

Deferred tax assets are stated at the rate of 28% (2011: 28%) as a result of the change in tax rate applicable from 1 July 2011. There are no tax amounts recognised directly in equity for the current or prior year.

8 Distributions

The Consolidated Entity did not pay any distributions for the current year ended 30 June 2012 and the prior year ended 30 June 2011. Under the current debt facility, the Consolidated Entity is restricted from making distributions to investors until the LVR is less than 55% (assuming all other covenants are satisfied).

1 Last valuation in NZ\$ is converted at the 30 June 2012 exchange rate A\$1 = NZ\$1.2771 (2011: A\$1 = NZ\$1.2953).

2 Book value represents the last valuation, except in the case of ASB Bank Centre at current year end and the University Building at prior year end, which are/were carried as held for sale. The June 2012 book value in NZ\$ is converted at the 30 June 2012 exchange rate A\$1 = NZ\$1.2771 (2011: A\$1 = NZD1.2953). The book value of the properties at 30 June 2012 is NZ\$428,900,000 (2011: NZ\$454,149,000). The value of cost including additions at 30 June 2012 is NZ\$484,041,000 (2011: NZ\$492,865,000).

3 There are no investment properties held by the Fund.

Independent valuations

The investment properties of the Consolidated Entity are internally valued at each reporting date. The Consolidated Entity's policy is to obtain external valuations when internal valuations performed indicate the property value has changed by more than 5%, or whenever it is believed that the fair value of a property differs significantly from its carrying value, based on a material change to the assumptions and market conditions underlying the valuation. An external valuation is obtained at least every 3 years.

At 30 June 2012, the entire property portfolio was valued by independent valuers Colliers International. At 30 June 2012, all valuations have been undertaken using a number of approaches, including the contract income approach, the market income approach and the discounted cashflow approach. The market capitalisation rates adopted by Colliers International in the 30 June 2012 independent valuations range from 8.25% to 9.50%.

Investment properties held for sale

At 30 June 2012, the Consolidated Entity's investment in the ASB Bank Centre building has been classified as held for sale. The sale of the building was settled post financial year end, on 27 July 2012, for gross consideration of \$80,092,000 or NZ\$104,000,000.

At 31 December 2011, the Consolidated Entity's investment in a portion of The Hub – Whakatane property was classified as held for sale. The portion sold was settled on 29 February 2012 for gross consideration of \$5,774,000 or NZ\$7,415,000.

At 30 June 2011, the Consolidated Entity's investment in the University Building was classified as held for sale. The sale of the property was settled on 19 July 2011 for gross consideration of \$7,644,000 or NZ\$9,600,000.

The net proceeds from all sales were used to repay debt.

Notes to the Financial Statements continued

Multiplex New Zealand Property Fund

For the year ended 30 June 2012

11 Investment properties continued

Investment properties held for sale continued

Reconciliation of the carrying amount of investment properties is set out below:

	Consolidated	
	Year ended 30 June 2012 \$'000	Year ended 30 June 2011 \$'000
Investment properties		
Carrying amount at beginning of year	350,613	484,541
Sale of investment property	(12,496)	(91,707)
Capital expenditure and incentives	6,615	6,462
Net loss from fair value adjustments to investment properties	(14,151)	(25,347)
Impact of straight-lining	151	142
Foreign currency translation exchange adjustment	5,108	(23,478)
Carrying amount at year end	335,840	350,613

Foreign currency translation exchange adjustments arise due to changes in opening and closing foreign exchange rates. NZ\$ balances at 30 June 2012 have been translated at a rate of A\$1 = NZ\$1.2771. NZ\$ balances at 30 June 2011 have been translated at a rate of A\$1 = NZ\$1.2953.

Leasing arrangements

Completed investment properties are leased to tenants under long-term operating leases with rentals receivable monthly. Minimum lease payments under non-cancellable operating leases of investment properties not recognised in the financial statements are receivable as follows:

	Consolidated	
	2012 \$'000	2011 \$'000
Within one year	30,256	25,529
Later than one year but not later than five years	70,735	66,165
Later than five years	42,334	49,226
Total minimum lease payments	143,325	140,920

Minimum lease payments in NZ\$ has been converted at the 30 June 2012 exchange rate of A\$1 = NZ\$1.2771 (2011: A\$1 = NZ\$1.2953)

Annual rent receivable by the Consolidated Entity under current leases from tenants is from commercial, industrial, retail and car park assets held. The weighted average lease term is 4.50 years (2011: 4.84 years) and rent reviews are generally performed on a three yearly basis and are based on market rent.

	Ownership %	Fund	
		2012 \$'000	2011 \$'000
12 Investment in controlled entities			
Investment in Brookfield Albert Street Investment Trust	99	207,993	207,993
Provision for impairment		(105,631)	(86,695)
Investment in Brookfield Albert Street Landowning Trust	1	259	259
Provision for impairment		(72)	(72)
Investment in Multiplex Tasman Holding Trust	100	–	–
Provision for impairment		–	–
Total investments in controlled entities		102,549	121,485

A review of the carrying value of the investments in controlled entities at 30 June 2012 indicated that further impairment to the investment in Brookfield Albert Street Investment Trust (BASIT) is required. \$18,936,000 of further provisions were therefore recorded in the current year (2011: \$29,233,000) to reflect the value of the investment at a value equivalent to the net assets attributable to the underlying subsidiary investments. No further provision for impairment was required against Brookfield Albert Street Landowning Trust (BASLT). The Fund ultimately owns 100% of BASLT through its ownership in the other two controlled entities.

Repayment and refinancing of debt

During the current year, the Consolidated Entity made two debt repayments totalling NZ\$16,642,000 using the net proceeds from the disposal of University Building and the partial disposal of The Hub – Whakatane.

Subsequent to the year end, the Consolidated Entity made one further debt repayment on 27 July 2012, for NZ\$103,660,000, using the net proceeds from the disposal of ASB Bank Centre.

Subsequent to the year end, on 17 August 2012, the Consolidated Entity entered into a revised term facility with ANZ. Refer to events subsequent to the reporting date (note 23) for further details.

In advance of 30 June 2012, the Consolidated Entity obtained a waiver from its financiers regarding the LVR requirement for 30 June 2012. At 30 June 2012 the Consolidated Entity was in compliance with its debt covenants.

The Consolidated Entity had entered into an interest rate swap (IRS) agreement to partially hedge the interest rate risk on the floating rate interest bearing liabilities detailed above. During the current year, the IRS with notional value of NZ\$198,567,000 matured on 31 August 2011. At current year end, the Consolidated Entity has no derivative instruments in place. Fair value movements of the IRS in prior periods were recognised in the Statement of Comprehensive Income.

Significant accounting policies

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which revenues and expenses are recognised, in respect of each class of financial asset and financial liability, are disclosed in Note 3 to the financial statements.

Throughout the year, in assessing the size and frequency of any distributions, the Responsible Entity considers all of the risk factors disclosed below. This includes considering the liquid/illiquid nature of any assets or investments held by the Consolidated Entity and financing arrangements.

Notes to the Financial Statements continued

Multiplex New Zealand Property Fund

28

For the year ended 30 June 2012

18 Financial instruments continued

Significant accounting policies continued

a Capital risk management

The Board's intention is to maintain a strong capital base so as to maintain investor confidence and the sustainable future development of the Consolidated Entity. The Board monitors the net tangible assets (NTA) of the Consolidated Entity, along with earnings per unit invested and distributions paid per unit.

The Board seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the security afforded by a sound capital position.

b Financial risk management

Overview

The Consolidated Entity is exposed to financial risks in the course of its operations. These risks can be summarised as follows:

- credit risk;
- liquidity risk; and
- market risk (including interest rate risk, foreign currency risk and equity price risk).

The Responsible Entity has responsibility for the establishment and monitoring of a risk management framework. This framework seeks to minimise the potential adverse impact of the above risks on the Consolidated Entity's financial performance. The Board of the Responsible Entity is responsible for developing risk management policies and the Board Risk and Compliance Committee (which is established by the Board) is responsible for ensuring compliance with those risk management policies as outlined in the compliance plan.

Compliance with the Consolidated Entity's policies is reviewed by the Responsible Entity on a regular basis. The results of these reviews are reported to the Board and Board Risk and Compliance Committee of the Responsible Entity quarterly.

Investment mandate

The Consolidated Entity's investment mandate, as disclosed in its Constitution and Product Disclosure Statement (PDS), is to invest in property assets across New Zealand.

Derivative financial instruments

Whilst the Consolidated Entity utilises derivative financial instruments, it does not enter into or trade derivative financial instruments for speculative purposes. The use of derivatives is governed by the Consolidated Entity's investment policies, which provide written principles on the use of financial derivatives. These principles permit the use of derivatives to mitigate financial risks associated with financial instruments utilised by the Consolidated Entity. Refer to interest bearing liabilities (Note 14) for further details.

c Credit risk

Credit risk is the risk of financial loss to the Consolidated Entity if a customer or counterparty to a financial instrument fails to meet its contractual obligations.

Trade and other receivables

The Consolidated Entity's exposures to credit risk are influenced mainly by the individual characteristics of each tenant and counterparty. The Consolidated Entity manages and minimises exposure to credit risk by:

- obtaining guarantees from tenants of the Consolidated Entity's direct properties (where appropriate);
- managing and minimising exposures to individual tenants (where appropriate);
- monitoring receivables balances on an ongoing basis; and
- obtaining other collateral as security (where appropriate).

Fair value of financial derivatives

Transactions with derivative counterparties are limited to established financial institutions. The Consolidated Entity also utilises the International Swaps and Derivatives Association's (ISDA's) agreements with derivative counterparties where possible to limit the credit risk exposure of such transactions by allowing settlement of derivative transaction on a net rather than gross basis.

The Consolidated Entity's overall strategy of credit risk management remains unchanged from 2011.

Notes to the Financial Statements continued

Multiplex New Zealand Property Fund

29

For the year ended 30 June 2012

18 Financial instruments continued

c Credit risk continued

Exposure to credit risk

The table below shows the maximum exposure to credit risk at the reporting date. The carrying amounts of these financial assets represent the maximum credit risk exposure at the reporting date.

	Consolidated 2012 \$'000	2011 \$'000
Cash and cash equivalents	24,097	19,096
Trade and other receivables	649	974
Total exposure to credit risk	24,746	20,070

Concentrations of credit risk exposure

Commonwealth Bank of Australia (CBA) and ANZ National Bank Limited (ANZ) are counterparties to the current term debt facility, cash held on deposit and interest rate swap agreements. Therefore the Consolidated Entity has a concentration of credit risk with these parties. In assessing this risk, the Consolidated Entity has taken into account CBA's and ANZ's financial positions, market share and reputation, previous experience with these types of transactions, and independent ratings for various covered and uncovered securities. In considering all these factors, the Consolidated Entity does not consider there to be a significant risk of default by the counterparties as at the period end date.

Collateral obtained/held

Where applicable, the Consolidated Entity obtains collateral from counterparties to minimise the risk of default on its contractual obligations. The majority of tenants of the Consolidated Entity's property assets have provided bank guarantees in favour of the direct property-owning entities within the Consolidated Entity. At the current and prior reporting dates, the Consolidated Entity did not hold any other collateral in respect of its financial assets (2011: nil).

During the year ended 30 June 2012, the Consolidated Entity did not call on any collateral provided (2011: nil).

Financial assets past due but not impaired

The ageing of the Consolidated Entity's receivables at the reporting date is detailed below:

	Consolidated 2012 \$'000	2011 \$'000
Current	647	930
Past due 0-30 days	-	9
Past due 31-120 days	-	35
Past due 121 days to one year	-	-
More than one year	2	-
Total trade and other receivables	649	974

For the Consolidated Entity, amounts recognised above are not deemed to be impaired. There are no significant financial assets that have had their terms renegotiated that would otherwise have rendered the financial assets past due or impaired (2011: nil). During the year ended 30 June 2012, a \$212,000 reversal of bad debt impairment was recognised by the Consolidated Entity (2011: \$340,000 bad debt expense).

d Liquidity risk

Liquidity risk is the risk the Consolidated Entity will not be able to meet its financial obligations as and when they fall due.

Sources of liquidity risk and risk management strategies

The main sources of liquidity risk for the Consolidated Entity is related to the refinancing of interest bearing liabilities and redemptions paid to unitholders. The Consolidated Entity's approach to managing liquidity risk is to ensure that it has sufficient cash available to meet its liabilities as and when they fall due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Consolidated Entity's reputation.

Interest bearing liabilities

The Consolidated Entity is exposed to liquidity risk (refinancing risk) on its interest bearing loans. The Consolidated Entity manages this risk by ensuring debt maturity dates and loan covenants are regularly monitored and negotiations with counterparties are commenced well in advance of the debt's maturity date.

Notes to the Financial Statements continued

Multiplex New Zealand Property Fund

30

For the year ended 30 June 2012

18 Financial instruments continued

d Liquidity risk continued

Unitholders

The Fund is not currently exposed to liquidity risk associated with unitholder redemptions. Following the unitholders vote on 17 September 2012, the Responsible Entity may be required to realise assets within a reasonable time to facilitate the withdrawal of unitholders from the Fund.

Defaults and breaches

In advance of 30 June 2012, the Consolidated Entity obtained a waiver from its financiers regarding the LVR requirement for 30 June 2012. During the financial years ended 30 June 2012 and 30 June 2011, the Consolidated Entity was not in default or breach of any terms of its loan amounts or covenants.

Maturity analysis of financial liabilities

The following are the contractual maturities of financial liabilities, including estimated interest payments. The tables have been prepared based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Consolidated Entity can be required to pay.

	Carrying amount	Contractual cash flows	Consolidated \$'000			
			0 to 12 months	1 to 2 years	2 to 5 years	Greater than 5 years

2011						
Trade and other payables	23,519	23,519	23,519	–	–	–
Interest bearing liabilities	207,801	207,801	–	207,801	–	–
Interest payable on debt	1,989	11,271	9,638	1,633	–	–
Effect of interest rate swap	1,060	823	823	–	–	–
Net interest payable on debt	3,049	12,094	10,461	1,633	–	–
Total financial liabilities	234,369	243,414	33,980	209,434	–	–

e Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices, will affect the Consolidated Entity's income or the value of its financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising returns.

Sources of market risk and risk management strategies

The Consolidated Entity is exposed to market risk in the form of interest rate risk and foreign currency risk. The Consolidated Entity enters into derivatives in order to manage interest rate risk. Derivatives are not entered into for speculative or trading purposes.

Interest rate risk

Interest rate risk refers to the risk that the value of a financial instrument or cash flows associated with the instrument will fluctuate due to changes in market interest rates. Cash and cash equivalent balances will also fluctuate with changes in interest rates due to interest earned. The key source of interest rate risk for the Consolidated Entity is derived from interest bearing liabilities. The Consolidated Entity manages this exposure by entering into interest rate swap agreements to fix the interest rate charged on its interest bearing liabilities, as detailed in interest bearing liabilities (Note 14).

Foreign currency risk

Foreign currency risk is the risk that the market value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

Sources of risk and risk management strategies

The Consolidated Entity undertakes the majority of its transactions in the New Zealand dollar currency, as the assets of the Fund are located in New Zealand. As a consequence, all activities of the Consolidated Entity are exposed to exchange rate risk. This arises due to the capital raised by the Fund (and subsequently redeemed) is in Australian Dollars, and all distributions are paid to unitholders in Australian dollars.

The Consolidated Entity uses the following strategies to hedge its foreign currency exposures:

- for assets which earn income in a foreign currency, borrowings are sourced in the same currency as the asset, which creates a natural hedge; and
- forward exchange contracts may be utilised to hedge net income earned in New Zealand which is repatriated to Australia to pay distributions to unitholders (which are paid in Australian Dollars).

f Fair values

Methods for determining fair values

A number of the Consolidated Entity's accounting policies and disclosures require the determination of fair value for financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods.

Cash and cash equivalents and trade and other receivables

Fair value, which is determined for disclosure purposes, is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date.

Derivatives

The fair value of interest rate swaps is estimated by discounting future cash flows based on the terms and maturity of each contract and using market interest rates for similar instruments at the reporting date.

Non-derivative financial liabilities

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date.

Fair values versus carrying amounts

The Consolidated Entity is required to disclose fair value measurements by level of the following fair value measurement hierarchy:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (level 2); and
- inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

f Fair values continued

The following table presents the Consolidated Entity's assets and liabilities measured and recognised at fair value at 30 June 2012. The carrying amounts of cash and cash equivalents, trade and other receivables, and trade and other payables are assumed to reasonably approximate their fair values due to their short-term nature. Accordingly, fair value disclosures are not provided for such assets and liabilities.

Directors' interests

Allan McDonald, a Director of the Responsible Entity, holds 26,000 units in the Fund. No other Directors have interests in the unit capital of the Fund at the date of this report. No options are held by/have been issued to any Directors.

Responsible Entity's fees and other transactions

In accordance with the Fund Constitution, BCML is entitled to receive:

Performance fee

The performance fee is calculated in accordance with the constitution, which requires a fee to be paid equivalent of up to 2.0% of the gross value of the assets of the Fund, to the extent that the net assets exceed the capital subscribed, as at the end of the first period (September 2012). The performance fee expense for the year ended 30 June 2012 was nil (2011: nil). As at 30 June 2012, the performance fee payable to the Responsible Entity was nil (2011: nil).

Management fee

A management fee based on the gross value of assets is payable to the Responsible Entity, less a fee of NZ\$6,500 per month payable to Multiplex Tasman Management New Zealand Limited. The fee is payable by the Fund monthly in arrears. The management fee expense for the year ended 30 June 2012 was \$2,487,000 (2011: \$2,839,000). As at 30 June 2012, the management fee payable to the Responsible Entity was \$17,111,000 (2011: \$14,653,000).

Establishment fee

An establishment fee up to 5% of the gross value of assets acquired which compensates the Manager from the risks and expenses associated with raising equity acquiring assets and establishing the Fund is payable to the Responsible Entity. From this fee, the Manager will pay commissions in relation to subscriptions. This fee is payable by the Fund on the completion or purchase of assets. No establishment fees have been incurred or paid to the Responsible Entity in 2012 or 2011.

Expense reimbursements

The Responsible Entity is reimbursed by the Consolidated Entity for all expenses incurred on behalf of the Consolidated Entity.

Leasing fees

Leasing fees are payable to the Responsible Entity for an amount not more than 8.5% of the gross proceeds for the first year of the new or extended term of a lease of premises that form part of the property. The leasing fees incurred by the Consolidated Entity in the year ended 30 June 2012 was nil (2011: nil). As at 30 June 2012, the leasing fees payable to the Responsible Entity are \$462,000 (2011: \$456,000).

Property sales fees

Property sales fees are payable to the Responsible Entity at a rate of 2% of the gross sales price, only to the extent this fee will not cause the net sales proceeds to fall below the purchase price plus all acquisition costs for the asset sold. An additional fee of 2% is payable to the extent the net sales proceeds represent more than a 50% premium on the purchase price plus acquisition costs. The property sales fees incurred by the Consolidated Entity in the year ended 30 June 2012 was nil (2011: nil). As at 30 June 2012, the property sales fees payable to the Responsible Entity are \$1,671,000 (2011: \$1,647,000).

Parent entities

The ultimate Australian parent of the Consolidated Entity is Brookfield Holdco (Australia) Pty Limited. The ultimate parent of the Consolidated Entity is Brookfield Asset Management Inc..

Related party unitholders

The following interests were held in the Consolidated Entity during the year:

- Brookfield Funds Management Limited as responsible entity for Brookfield Australia Property Trust holds 47,461,298 units or 21.8% of the Fund at year end (2011: 47,461,298 units or 21.8% of the Fund);
- JP Morgan Chase Bank N.A. as custodian for Brookfield Australian Opportunities Fund holds 43,890,679 units or 20.1% of the Fund at year end (2011: 43,890,679 units or 20.1% of the Fund);
- Perpetual Trust Limited as trustee for Multiplex Tasman Property Fund holds 4,560,502 units or 2.1% of the Fund at year end (2011: 4,560,502 units or 2.1% of the Fund);
- JP Morgan Chase Bank N.A. as custodian for Multiplex Property Income Fund holds 1,125,402 units or 0.5% of the Fund at year end (2011: 1,125,402 units or 0.5% of the Fund);
- BCML holds 17,266,146 units or 7.9% of the Fund at year end (2011: 17,266,146 units or 7.9% of the Fund);
- Multiplex APF Pty Ltd, as trustee for Multiplex APF Trust, holds 3,712,913 units or 1.7% of the Fund at year end (2011: 3,712,913 units or 1.7% of the Fund); and
- Brookfield Multiplex Capital Pty Ltd holds 220,793 units or 0.1% of the Fund at year end (2011: 220,793 units or 0.1% of the Fund).

21 Contingent liabilities and assets

As at 30 June 2012, the Consolidated Entity has total contingent assets of \$78,000 (NZ\$100,000). Under the terms of the sale and purchase agreement for one of its investment properties, the Consolidated Entity has contracted the retention of NZ\$100,000 by the vendor to ensure satisfactory completion of any building defects currently under investigation. (2011: NZ\$28,000 contingent asset).

Other than the matters noted above, no other contingent liabilities or assets existed at 30 June 2012 or 30 June 2011.

22 Capital and other commitments

The Consolidated Entity is committed to refurbishment, upgrade and other works as required by the terms of lease or other agreements. At 30 June 2012 this commitment totals \$25,000 (NZ\$32,000) (2011: \$1,579,000 or NZ\$2,045,000).

23 Events subsequent to the reporting date

At 30 June 2012, the Consolidated Entity's investment in the ASB Bank Centre building has been classified as held for sale. The sale of the building was settled post financial year end, on 27 July 2012, for gross consideration of \$80,092,000 or NZ\$104,000,000. The net proceeds from sale was used to repay debt.

Refinancing of debt

Subsequent to the year end, on 17 August 2012, the Consolidated Entity entered into a revised term facility with ANZ. The key terms are as follows:

- Term: Until 16 August 2015 (being 36 months from date of signing the new facility).
- Amount: NZ\$149,984,000
- Base rate plus a margin subject to the following rates:
 - The margin for the first draw period will be 2.50%. For each subsequent draw period, the margin will be determined by reference to the table below based on the then applicable LVR.

- o (historical interest cover) the ratio of EBIT to Total Interest Expense for the preceding 6 month period is at least 1.50 : 1.00; and
- o (Forecast ICR) the Forecast ICR is at least 1.50 : 1.00.

Other than the above, there are no matters or circumstances which have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Consolidated Entity, the results of those operations, or the state of affairs of the consolidated entity in subsequent financial years.

Directors' Declaration

Multiplex New Zealand Property Fund

37

For the year ended 30 June 2012

In the opinion of the Directors of Brookfield Capital Management Limited, as Responsible Entity of Multiplex New Zealand Property Fund:

- a The consolidated financial statements and notes, set out in pages 10 to 36, are in accordance with the *Corporations Act 2001*, including:
 - i giving a true and fair view of the financial position of the Consolidated Entity as at 30 June 2012 and of its performance for the financial year ended on that date; and
 - ii complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*; and
 - iii complying with International Financial Reporting Standards, as stated in note 2 to the financial statements.
- b There are reasonable grounds to believe that the Fund will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of the Directors of Brookfield Capital Management Limited required by Section 295(5) of the *Corporations Act 2001*.

Dated at Sydney this 22nd day of August 2012.

Russell Prutt
Director
Brookfield Capital Management Limited
